- ♦ **ENVIRONMENTAL ASSISTANCE CENTER**  
800-662-9278  
E-mail: [deq-ead-env-assist@michigan.gov](mailto:deq-ead-env-assist@michigan.gov)

The DEQ Environmental Assistance Center (EAC) is available to provide direct access to DEQ environmental programs, answers to environmental questions, referrals to DEQ technical staff, and quick response. Questions on any items listed in the DEQ Calendar can be referred to the EAC.

- ♦ **PUBLICATION SCHEDULE**

The DEQ Calendar is published every two weeks, on alternate Mondays, by the Michigan Department of Environmental Quality. We welcome your comments.

- ♦ **CALENDAR LISTSERV**

You may subscribe to receive the DEQ Calendar electronically by sending an Email to the listserv at [LISTSERV@LISTSERV.MICHIGAN.GOV](mailto:LISTSERV@LISTSERV.MICHIGAN.GOV) and in the body of the message type Subscribe, DEQ-CALENDAR, and your name.

- ♦ **INTERNET ACCESS**  
[www.michigan.gov/deqcalendar](http://www.michigan.gov/deqcalendar)

The DEQ Calendar is available on the DEQ World Wide Web site in pdf and html format. Access the calendar at [www.michigan.gov/deqcalendar](http://www.michigan.gov/deqcalendar).

- ♦ **TIMETABLE FOR DECISIONS**

No decision listed in the DEQ Calendar will be made prior to seven days after the initial Calendar publication date.

- ♦ **TIPS FOR CITIZEN INPUT**

Refer to the "Public Involvement Handbook, A Citizens Guide" to increase the effectiveness of your input into DEQ programs. Access the handbook at [www.michigan.gov/deq](http://www.michigan.gov/deq) and click on "Get Involved, Programs for Citizens."

MANAGEMENT  
DIVISION**  
See Map – No. ⑥

**WAUMEGAH LAKE IMPROVEMENT BOARD, SPRINGFIELD TOWNSHIP, OAKLAND COUNTY. PERMIT APPLICATION NUMBER 03-63-0300-P.** The Land and Water Management Division (LWMD) is proposing to settle a pending contested case with the Waumegah Lake Improvement Board (Board) for augmentation of the lake level and related construction. The LWMD originally denied a permit application filed on behalf of the Board for activities related to augmentation of the lake level with the intent of raising the water level to 1049.9 N.G.V.D. (summer legal lake level). The LWMD issued a permit in 2004 which authorized the placement of 188 cubic yards of fill in wetland to stabilize and reinforce existing berms, placement of riprap in the lake at the discharge point of the augmentation well, and inundation of wetlands along the lakeshore by raising the water level of the lake to the elevation of 1048.8 N.G.V.D. Since 2004 the Board has provided additional information which indicates recent historic and continuous lake levels of at least 1049.4 N.G.V.D. Based on this information, the LWMD is proposing to settle this contested case by agreeing that the augmentation of the water level in the lake when the lake level is below 1049.4 N.G.V.D does not require a permit. The LWMD is also proposing as part of the settlement to extend the permit issued in 2004 to authorize completion of the berm stabilization and reinforcement. To view a summary of the proposed settlement, go to [www.michigan.gov/deq](http://www.michigan.gov/deq) (click on 'inside DEQ' and 'Land and Water Management Division'). Information Contact: **Kimberly Fish**, Land and Water Management Division, 517-335-3190, or Email at [fishk@michigan.gov](mailto:fishk@michigan.gov).

**WATER BUREAU**  
See Map – No. ⑨

**CITY OF OWOSSO, OWOSSO/MID-SHIAWASSEE COUNTY WASTEWATER TREATMENT PLANT, OWOSSO, SHIAWASSEE COUNTY (NPDES Permit No. MI0023752).** Based on a negotiated settlement of a petition for a contested case hearing, the Water Bureau is proposing to revise the total mercury effluent limitation requirements and the Pollutant Minimization Program in the discharge permit issued on March 22, 2007, to the City of Owosso. The facility discharges 6.0 million gallons per day of treated municipal wastewater to the Shiawassee River. The proposed permit, notice of negotiation of settlement, and fact sheet may be obtained via the Web at ([www.michigan.gov/deq](http://www.michigan.gov/deq) - on the left side of the screen click on Water, Surface Water, and NPDES Permits; then click on 'Permits on Public Notice' which is under the Permits banner) or at the Water Bureau Lansing District Office located in Constitution Hall, 525 W. Allegan, 4th Floor-North, P.O. Box 30242, Lansing, Michigan 48909, telephone: 517-335-4598. Information Contact: **Stephanie Swart**, Water Bureau, 517-335-6721, or Email at [swartsl@michigan.gov](mailto:swartsl@michigan.gov)

## Administrative Rules Promulgation

**AIR QUALITY  
DIVISION**

**PART 55, AIR POLLUTION CONTROL, NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED.** The Air Quality Division will be holding a public hearing on September 5, 2007 (see September 5 listing in this calendar) on a proposed revision to the Air Pollution Control Rules (SOAHR 2006-043EQ). The proposed new rule, R 336.1640, will limit volatile organic compound emissions at a cement manufacturing facility. The proposed rules can be viewed on the Web at [www.michigan.gov/deqair](http://www.michigan.gov/deqair) (click on "Laws & Rules"). Copies of the proposed rules may also be obtained by contacting the Air Quality Division, Department of Environmental Quality, 525 West Allegan Street, P.O. Box 30260, Lansing, Michigan 48909-7760. Written

comments will be accepted until 5:00 p.m. on September 5, 2007, and should be mailed to the address above. Information Contact: **Asad Khan**, Air Quality Division, 517-335-6825, or Email at [khana@michigan.gov](mailto:khana@michigan.gov). Decision-maker: **DEQ Director**.

## Announcements

### LAND AND WATER MANAGEMENT DIVISION

**MINIMUM FLOW RELEASE FROM THE GREENWOOD RESERVOIR TO THE MIDDLE BRANCH ESCANABA RIVER REDUCED BECAUSE OF DROUGHT CONDITIONS.** On July 23, 2007, the DEQ's, Land and Water Management Division (LWMD), authorized the temporary reduction of the minimum flow release to the Middle Branch Escanaba River. This action is in response to a petition from the Tilden Mining Company. The LWMD concurs that the watershed is experiencing a severe drought, and if weather conditions do not improve, there is a risk that the Greenwood Reservoir could reach critical levels next spring. The required minimum flow release from July 24, 2007, until September 14, 2007, will be 16 cfs. This authorization is pursuant to the Tilden Mining Company's Amended Order and Permit dated November 2, 1998, issued under the authority of Part 35, Use of Water in Mining Low-Grade Ore, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. Information Contact: **David A. Hamilton**, 517-335-3174.

### REMEDATION AND REDEVELOPMENT DIVISION JULY – SEPTEMBER 14, 2007

**CALL FOR IDEAS (now through September 14, 2007) FOR BROWNFIELDS 2008-DETROIT CONFERENCE.** Gear up for the largest gathering of Brownfields stakeholders – the BROWNFIELDS 2008 conference – to be held on May 5-7, 2008 at the Cobo Center in Detroit. With nearly 6,000 attendees, over 150 educational sessions, more than 200 exhibitors, and unrivaled networking events – this National Brownfields Conference is the premier event of its kind and is co-sponsored by the U.S. Environmental Protection Agency (EPA) and the International City/County Management Association (ICMA). The **CALL FOR IDEAS is open from now through September 14, 2007!** To create an exceptional educational experience, we welcome your perspective on the most important issues facing brownfields practitioners, policy makers, communities, and companies. Please send your abstracts, proposals for complete sessions, or simply an idea that you think should be considered for the 2008 conference today! Brownfields 2008 includes timely and valuable knowledge and skill building workshops, exceptional business development and networking opportunities, and hundreds of product and service providers in the exhibit hall to meet your project needs. Visit [www.brownfields2008.org](http://www.brownfields2008.org) to learn the latest, submit your Call for Ideas, and sign up for the Brownfields 2008 e-newsletter. The DEQ is an official endorser of Brownfields 2008. Information Contact: **Ronald Smedley**, Remediation and Redevelopment Division, 517-373-4805, or Email at [smedleyr@michigan.gov](mailto:smedleyr@michigan.gov).

### REMEDATION AND REDEVELOPMENT DIVISION JULY 30 – AUGUST 29, 2007

**SECOND ROUND OF APPLICATIONS (July 30-August 29, 2007) – TEMPORARY REIMBURSEMENT PROGRAM FOR LEAKING UNDERGROUND STORAGE TANK SITES.** The Michigan Department of Environmental Quality (DEQ) Remediation and Redevelopment Division (RRD) will administer the second round of the Temporary Reimbursement Program (TRP) created by the July 20, 2006, amendments to Part 215, Refined Petroleum Fund (RPF), of the Natural Resources and Environmental Protection Act, 1994 PA 451.

**Overview:** The first round of the TRP allocated approximately \$26 million for owners and operators who had approved claims under the former Michigan Underground Storage Tank Financial Assurance (MUSTFA)<sup>1</sup> Program or persons with a valid assignment of an approved MUSTFA claim for high risk sites, provided certain other eligibility criteria were met. The TRP assists owners and operators in paying for newly incurred cleanup costs associated with releases from their petroleum underground storage tank systems. Note that the program is only for new costs incurred after approval of the pre-certification application. Funds remain for a second round of applications that will be accepted on a first-come, first-served basis. Applicants who were approved in the first round for a given site cannot reapply for the same site. Applicants denied in the first round due to the site risk not being a class 1 or class 2 before May 9, 2005, may reapply if the latest information shows that the site is a class 1 or a class 2. The eligibility criteria for the second round are the same as those for the first round except that the site risk of class 1 or class 2 must be based on the most recent data.

Eligible persons shall receive reimbursement of 80 percent of each approved work invoice, up to a maximum total reimbursement amount of \$50,000.00 per approved site. The remaining 20 percent, up to a maximum of \$12,500, is considered a co-pay amount to be paid by the applicant. If funds still remain after all allocations, the remaining money will be allocated on a prorated basis among the

approved first and second round applicants. To receive funding, the applicant must retain a Qualified Underground Storage Tank Consultant (QC) to perform the corrective actions in accordance with Part 213.<sup>2</sup>

**Application Timeframe:** The application form for the second round will be available on the Internet at 8:00 a.m. July 30, 2007, and will be accepted from July 30, 2007, through 5:00 p.m. August 29, 2007. Applications submitted outside this window will not be considered. Subscribers to the DEQ-RRD electronic mailing list (listserv) will also receive the application form when it is released.

**For more information:** Details on the program and the enabling legislation are available from the [RPF – Temporary Reimbursement Program link](#) on the RRD homepage at [www.michigan.gov/deqrrd](http://www.michigan.gov/deqrrd).

In order to receive further updates on the TRP, the DEQ recommends that you subscribe to the Remediation and Redevelopment Division's electronic mailing list (listserv) by sending an Email message to [rpf@michigan.gov](mailto:rpf@michigan.gov).

**Information Contacts:** **Robert Reisner**, Funding Support Unit Chief, Remediation and Redevelopment Division, 517-335-6843, or Email at [reisnerr@michigan.gov](mailto:reisnerr@michigan.gov), and **Paula McAllister**, Temporary Reimbursement Program Unit Chief, Remediation and Redevelopment Division, 517-335-7251, or Email at [mcallisp@michigan.gov](mailto:mcallisp@michigan.gov).

<sup>1</sup> The former MUSTFA program created under Part 215 of Act 451.

<sup>2</sup> Part 213, Leaking Underground Storage Tanks, of Act 451

## Public Hearings and Meetings

**Note: Persons with disabilities needing accommodations for effective participation in any of the meetings noted in this Calendar should call or write the appropriate meeting information contact listed below at least a week in advance to request mobility, visual, hearing, or other assistance.**

### AUGUST 7, 2007

**DEADLINE FOR PUBLIC COMMENT ON A PROPOSED PLAN FOR REMEDIAL ACTION FOR THE SPARTAN CHEMICAL COMPANY SUPERFUND SITE, WYOMING, KENT COUNTY.** Written comments are being accepted on a proposed plan for remedial action at the Spartan Chemical Company Site, 2539 28<sup>th</sup> Street, Wyoming, Kent County, Michigan. This site is the location of environmental contamination resulting from past operations at the site. During its operation, Spartan Chemical Company handled a variety of chemicals including aromatic solvents, naphthas, alcohols, ketones, ethers, chlorinated solvents and lacquer thinners. Contamination at the site includes volatile organic compounds in the soil and groundwater. The remedial action is intended to allow the site to be redeveloped for commercial use, and to be protective of downgradient receptors. The Proposed Plan includes limited on-site soil excavation with off-site disposal, operation of an air sparge/soil vapor extraction system for remediation of shallow source area dissolved phase and vadose zone contamination, in-situ chemical oxidation for deeper dissolved phase contamination, and monitored natural attenuation for the remaining off-site plume. A restrictive covenant will also be filed with the property deed which identifies the contamination and prohibits use of groundwater for domestic consumption. This plan is available for review at the DEQ Office in Lansing. It is also available at the Wyoming Branch of the Kent District Public Library, 3350 Michael Avenue SW. Written public comments should be received by the DEQ no later than 5:00 pm, August 7, 2007. Mail your comments to: Matthew Williams, DEQ Remediation and Redevelopment Division, Superfund Section, P.O. Box 30426, Lansing, Michigan 48909. Information Contact: **Matthew Williams**, Remediation and Redevelopment Division, Email at [williamm@michigan.gov](mailto:williamm@michigan.gov) 517-373-4821.

### AUGUST 8, 2007

**DEADLINE FOR PUBLIC COMMENT REGARDING ANR REED CITY COMPRESSOR STATION (SRN: B3721), REED CITY, OSCEOLA COUNTY,** for the proposed approval of a draft renewal of a Renewable Operating Permit (ROP) for the operation of The Reed City Compressor Station--a natural gas transmission and compression station which operates two natural gas storage fields, the Loreed and the Reed City Stray Storage Fields. The station utilizes nine natural gas-fired engines for transmission and processing. glycol dehydration systems which are used to remove liquids that are transported out of the reservoirs with the gas. The emissions from the glycol dehydrators are

controlled by thermal oxidizers. The draft permit is intended to simplify and clarify the facility's applicable requirements and will not result in any air emission changes at the stationary source. The ROP public notice documents can be viewed on the Web at [www.michigan.gov/deqair](http://www.michigan.gov/deqair). The responsible official of the stationary source is Tracy Purcell, Director of operations, 1001 Lousianna Street, Environmental Air Group – Suite S1103A, Houston, Texas 77002. Comments on the draft permit are to be submitted to Allen Retlewski, Michigan Department of Environmental Quality, Air Quality Division, Cadillac District Office, 120 West Chapin, Cadillac, Michigan 49601. The decision-maker for the permit is Janis Denman, District Supervisor. If requested in writing by August 8, 2007, a public hearing may be scheduled. Information Contact: **Allen Retlewski**, Air Quality Division, 231-775-3960, extension 6252.

### AUGUST 8, 2007

**DEADLINE FOR PUBLIC COMMENT REGARDING DAIMLERCHRYSLER COMPANY LLC, PLYMOUTH ROAD OFFICE COMPLEX (SRN: A8627), DETROIT, WAYNE COUNTY**, for the proposed approval of a draft renewal of a Renewable Operating Permit (ROP) for the operation of five natural gas-fired boilers used for power and steam generation, and 21 engine test cells used for the testing of automotive parts. The draft permit is intended to simplify and clarify the facility's applicable requirements and will not result in any air emission changes at the stationary source. The ROP public notice documents can be viewed on the Web at [www.michigan.gov/deqair](http://www.michigan.gov/deqair). The responsible official of the stationary source is John Garbacik, Building Manager, 14250 Plymouth Road, Detroit, Michigan 48227. Comments on the draft permit are to be submitted to Jill C. Placco, Michigan Department of Environmental Quality, Air Quality Division, Detroit Field Office, 3058 West Grand Boulevard, Suite 2-300, Detroit, Michigan. The decision-maker for the permit is Teresa Seidel, Southeast Michigan District Office. If requested in writing by August 8, 2007, a public hearing may be scheduled. Information Contact: **Jill C. Placco**, Air Quality Division, 313-456-4689.

### AUGUST 8, 2007

**DEADLINE FOR PUBLIC COMMENT REGARDING DETROIT DIESEL CORPORATION (SRN: A8638), DETROIT, WAYNE COUNTY**, for the proposed approval of a draft renewal of a Renewable Operating Permit (ROP) for a diesel engine manufacturing, development and testing facility. The draft permit is intended to simplify and clarify the facility's applicable requirements and will not result in any air emission changes at the stationary source. The ROP public notice documents can be viewed on the Web at [www.michigan.gov/deqair](http://www.michigan.gov/deqair). The responsible official of the stationary source is Kenneth Saari, Director of Core Facilities, 13400 West Outer Drive, Detroit, Michigan 48239. Comments on the draft permit are to be submitted to Stephen Weis, Michigan Department of Environmental Quality, Air Quality Division, Detroit Field Office, 3058 West Grand Boulevard, Suite 2-300, Detroit, Michigan. The decision-maker for the permit is Teresa Seidel, Southeast Michigan District Office. If requested in writing by August 8, 2007, a public hearing may be scheduled. Information Contact: **Stephen Weis**, Air Quality Division, 313-456-4688.

### AUGUST 8, 2007

**DEADLINE FOR PUBLIC COMMENT REGARDING GENERAL MOTORS POWERTRAIN GROUP-WILLOW RUN PLANT (SRN: B2052), YPSILANTI, WASHTENAW COUNTY**, for the proposed approval of a draft renewal of a Renewable Operating Permit (ROP) for the operation of automotive transmission production by metal heat treating, machining and assembly. Assembled transmissions are also tested. Four boilers supply steam power to the facility and a wastewater treatment operates on site. The draft permit is intended to simplify and clarify the facility's applicable requirements and will not result in any air emission changes at the stationary source. The ROP public notice documents can be viewed on the Web at [www.michigan.gov/deqair](http://www.michigan.gov/deqair). The responsible official of the stationary source is (Section1) Kingsley P. Wootton, Plant Manager, (Section2) Thomas W. Neelands, (Section 3) Jeri M. Ojeda, 2930 Ecorse Road, Ypsilanti, Michigan 48198. Comments on the draft permit are to be submitted to Diane Kavanaugh Vetort, Michigan Department of Environmental Quality, Air Quality Division, Jackson District Office, 301 East Louis Glick Highway, Jackson, Michigan 49201. The decision-maker for the permit is Glen Erickson, Acting District Supervisor. If requested in writing by August 8, 2007, a public hearing may be scheduled. Information Contact: **Diane Kavanaugh Vetort**, Air Quality Division, 517-780-7864.

### AUGUST 8, 2007

**DEADLINE FOR PUBLIC COMMENT REGARDING LOUISIANA-PACIFIC CORPORATION (SRN N1315), SAGOLA, DICKINSON COUNTY**, for the proposed approval of the draft Renewable Operating Permit (ROP) for the Louisiana-Pacific Corporation facility located at N8504 Highway M-95, Sagola, Michigan 49881. The draft ROP is intended to simplify and clarify the facility's applicable requirements and will not result in any air emission changes at the facility. The draft permit is a renewal of ROP #199600018. The ROP public notice documents can be viewed on the Web at [www.michigan.gov/deqair](http://www.michigan.gov/deqair). The responsible official at the Sagola location is Todd Maki, Plant

Manager, N8504 Highway M-95, Sagola, Michigan 49881. Comments on the proposed ROP are to be submitted in writing to Ronald Raisanen, Michigan Department of Environmental Quality, Air Quality Division, 420 5<sup>th</sup> Street, Gwinn, Michigan 49841. If requested in writing by August 8, 2007, a public hearing will be held on August 13, 2007 (see August 13 listing in this calendar). Information Contact: **Ronald Raisanen**, Air Quality Division, 906-346-8504.

### AUGUST 8, 2007

**2008 SECTIONS 303(d), 305(b), AND 314 INTEGRATED REPORT – DRAFT ASSESSMENT METHODOLOGY**. The Michigan Department of Environmental Quality (MDEQ), Water Bureau (WB), is accepting written comments on the draft assessment methodology for the Water Quality and Pollution Control in Michigan, 2008 Sections 303(d), 305(b), and 314 Integrated Report. Every two years, the DEQ, WB, prepares and submits an Integrated Report to the United States Environmental Protection Agency to satisfy the listing requirements of Section 303(d) and the reporting requirements of Sections 305(b) and 314 of the federal Clean Water Act. The Integrated Report describes the status of water quality in Michigan and includes a list of water bodies that are not attaining Michigan Water Quality Standards and require the establishment of pollutant Total Maximum Daily Loads (TMDLs). The assessment methodology will ultimately be a chapter in the 2008 Integrated Report and includes a description of the data and information that are used to determine designated use support, how the WB makes designated use support determinations, and how the WB delists TMDL classified assessment units. The draft assessment methodology can be viewed on the Web at [www.michigan.gov/deq](http://www.michigan.gov/deq). Comments may be submitted by August 9, 2007, to **Sarah LeSage**, Michigan Department of Environmental Quality, Water Bureau, 525 West Allegan Street, P.O. **EXTENSION OF DEADLINE FOR AIR POLLUTION COMMENT PERIOD ON CONSIDERATION OF CLEAN COAL TECHNOLOGY IN AIR USE PERMITTING:** The Michigan Department of Environmental Quality (DEQ) is taking public comments until September 14, 2007, on the DEQ's proposal to include clean coal technology as part of the air permitting process for new coal-fired electric generation in the state of Michigan. Specifically, consideration of Integrated Gasification Combined Cycle (IGCC) technology is proposed to be required as a part of the Best Available Control Technology (BACT) determination. The public comment period is to allow all interested parties the opportunity to comment on the DEQ's proposal. Both federal and state regulations require the use of BACT in the permitting of large air emissions sources, such as coal-fired power plants. The federal and state Prevention of Significant Deterioration regulations require that BACT be applied for each pollutant subject to the regulations. BACT is an emission limit based on the maximum degree of reduction for a pollutant and is determined on a case-by-case basis. It is important to note that the BACT limit cannot result in an impact above an air quality standard or any state or federal regulation. Additionally, BACT takes into consideration control options that are achievable through the application of available methods, "including fuel cleaning or treatment or innovative fuel combustion techniques." The DEQ is proposing that IGCC be considered along with other available methods for BACT review as part of the permitting process for coal-fired electric generating units. DEQ's fact sheet dated June 29, 2007, has been amended. The second bullet of the June 29, 2007, fact sheet which read, "Is consistent with policy and guidance provided by the U.S. Environmental Protection Agency," has been removed. The new fact sheet dated July 26, 2007 is available for inspection at the following locations, or you may request a copy be mailed to you by calling 517-241-7468.

**RENEWABLE OPERATING PERMIT (ROP) APPLICATION TRAINING, CONSTITUTION HALL, LANSING, MICHIGAN.** The Michigan Department of Environmental Quality's Environmental Assistance Program is offering this workshop designed to help you complete your initial or renewal ROP application using the PASS-ROP software. You will be taken step by step through the software in an interactive, hands-on format. You will also receive the "PASS-ROP Workbook" and other guidance materials. This workshop is specifically geared towards facilities that have recently become subject to the ROP Program and facilities that must renew their existing ROP and are within 18 months of their current ROP's expiration date. Anyone interested in learning how to complete and submit an ROP application using the PASS-ROP software is also welcome. This session is sold out. **MONTHLY AIR PERMIT APPLICATION WORKSHOP FOR FIRST-TIME APPLICANTS, CONSTITUTION HALL, LANSING, MICHIGAN.** For most first-time applicants, completing the Permit to Install application is a daunting task. However, submitting a complete and timely application can be more manageable if you know what's expected. The Michigan Department of Environmental Quality is offering this workshop designed to give information on how to submit a complete permit application. Since this workshop is geared to first-time applicants, a significant portion of the session is devoted to your specific application. Air Quality Division permit engineers will be available to discuss your permit application with you one-on-one. To take full advantage of this time with the permit engineer, it is recommended you bring detailed information about your project with you to the session. This training is designed for first-time air permit applicants who need help completing their permit application; however, those who have applied before and need a refresher are welcome to attend as well. Online registration is available on the Web at [www.michigan.gov/degworkshops](http://www.michigan.gov/degworkshops), click on "Upcoming DEQ Workshops". Registration Fee: \$25, which includes parking in the Ellis Parking Lot on the east side of Constitution Hall and training manual. **TURNING REACH INTO AN OPPORTUNITY: A TRAINING ON IMPLEMENTING THE EUROPEAN UNION'S NEW REACH LEGISLATION, LANSING COMMUNITY COLLEGE WEST**

MAY 5-7, 2008

**CAMPUS, LANSING, MICHIGAN.** REACH – Registration, Evaluation, and Authorization of Chemicals – is the recently adopted overhaul of the chemicals management system in the European Union (EU). Entered into force June 1, 2007, REACH has important implications for U.S. firms exporting to European Member States. In order to help U.S. companies implement REACH and move beyond the law toward sustainable chemicals management, the Michigan Department of Environmental Quality and Lowell Center for Sustainable Production are presenting this training. Attend this one-day training to learn from one of the few REACH authors and other experts about what you need to know to comply with REACH, stay competitive, and advance more sustainable chemicals management in your firm. Any company which exports chemicals or chemical mixtures into the EU; competes in Europe, the U.S. or elsewhere with products meeting European standards; or exports finished products to Europe should attend this training. Attendees will receive a database of tools and resources to help them make informed decisions about chemicals alternatives. For complete conference agenda and registration information, go to [www.chemicalspolicy.org/news.shtml](http://www.chemicalspolicy.org/news.shtml). Registration fee is \$100 and includes continental breakfast, lunch, and conference materials. Pre-registration and pre-payment are required. Registration and Information Contact: **Yve Torrie**, Lowell Center for Sustainable Production, 978-934-3121.
